Dear Bill:

Your letter of April 13 and Leonard Unger's "think-piece" on Albania have made very interesting reading here and have effectively pointed up the importance of developing an early position on the general problem. Present status of the problem in the Department is well covered in Wally Barbour's letter of April 30 addressed to Leonard. Incidentally, we discovered after sending you a copy of my memorandum of April 22 that Leonard's letter of March 30 had been sent directly to EE.

We have no additional information which might serve as a basis for definitive replies to the questions which you posed in the penultimate paragraph of your letter. We can of course guess, and that is the basis for the following comments.

I hope the information contained in these two letters will help you and Leonard in answering any inquiries which may come your way from Admiral Carney. If anything further is required please let us know.

Sincerely,

William H. Sullivan, Esquire,
 c/o Special Liaison Officer from
 American Embassy, Rome, Italy, to
 EAPSE, Naples, Italy.
